

PUNCH Basketball

Delftse Studenten Basketball Vereniging

TC-meeting

Tuesday 10-12-2013 20:00 @ Lijm en Cultuur studio

Opening

1. Opening

Present: Peter Flink, Jochem de Graas, Misha Stassen, Nigel Mulders, Bart van de Hoek, Jurriaan Heuberger en Board 61

Absent: Natalie van Nunen, Marije van der Laag (has emailed remarks) and Ann-Theres Schultz (has emailed remarks)

2. Agenda

Added to the agenda is referees on 13.

3. Minutes

Prints of minutes of last ALV present.

Shouldn't this be the prints of the last TC ALV instead? – This was a year ago and not really relevant.

General Issues

4. Members training on wrong times

There have been some complaints in the beginning of the year that there are some members who train on times which are not assigned to them. Do trainers notice this is still the case?

Jurriaan- on Thursday at 22.00 everyone is welcome. Few people show up on that time so that practice can use some filling.

Thomas- It sometimes is the case that mens 5 players are on the side during the end of the training games while there are training members on the court. While it is not their practice. This is bothersome for some players.

It should be clear for the trainers on which members should be practicing on which training times. It would be useful for trainers to receive a list of names for this.

Furthermore a list of training members is desired.

This way it will be more clear which members should have priority during their trainings.

Marije- The board should do random checks for this. The board members will have final saying on who should be asked to come on a different time.

Jurriaan suggests that there should be a more strict checking up on this during the beginning of a season. So there will be less quitters because of crowded courts and everyone can join the trainings which are assigned for them.

There have been some exceptions for players in the past, but mostly this was for players who really added something to the training which helped the trainers in some way. So they were tolerated by the trainers.

Delftse Studenten Basketball Vereniging

Ward will send lists of names to the trainers and there will be a notification to all the members asking the members to only join the practices on their assigned times and notifying that the board will be following up on this.

5. New balls and regulation

Max- We have some new balls. And there is a new arrangement with the sportcentre which means that all the basketballs are now really owned by Punch. This means that members and trainers should treat the balls more carefully. When something happens to the balls, we will not be able to knock on the SnC door for it.

During game weekends some members tend to retrieve extra balls from the storage unannounced. This is not intended, and gives a lot of difficulty for the court manager to keep track of all the balls on the court.

Furthermore the sportcentre is giving us lockers on the tribune with a combination lock, this is intended to put are balls in. All the trainers will receive the code for this. Juriaan asks if a the trainers can be notified about the amount of balls that punch has, so it is easier to keep track of.

6. Ghost members

Does any team have teammembers who haven't been seen all year?

Some names are offered. These players will be emailed and asked what the deal is with their subscription. And unsubscribed if necessary.

Training

7. Training schedule

During the beginning of the year there has been an agreement that the ladies would get 15 minutes less training time coming season then the first half year on Mondays. In practice because the training of the girls on Mondays starts at 5, the start of practice is later anyways. This because a lot of girls have study obligations until six. Also most of the times only one court is used during the end of practice and the mens walkin starts about half past 5.

It maybe is an option to plan in this walkin for coming season, so there would be more overlap between all the practices.

Marijes propositions that H1 should have the later practice on Mondays.

Unclear for most of the attendees what would be advantage of this.

Misha has heard that there was a fifteen minute overlap for shooting for H6,7 & 8 while H1 does a game, but in practice this is not the case?

Jurriaan will talk about this with Jan.

There will be a revision of the training schedule with Ward and the trainers. Ward will make several proposition schedules and will present this to the trainers. This needs to be done before the beginning of the next season.

8. Trainers

There will be a meeting with ward and all the trainers very soon, to discuss some issues also mentioned tonight.

Teams

9. Team playing levels

The team playing levels are already entered for next season at the NBB.

H5 will be going up a level en will probably play in the same poule as H4. H4 does not need a change of level per se according to Jurriaan and Junior.

If really necessary it might be still possible to try to change the subscription level of teams before the start of the next season, however this cannot be guaranteed. For this Thomas would be the one who you need to contact.

10. Player evaluation

H3

Ana has indicated that she might need some extra benchplayers for H3. Preferably centers. Maybe David, Hugo or Karel?

H4

Overall there is a pretty good constant level, Pietro might not be entirely on the right level. But there a team switch probably is not really necessary.

There is a shortage on tall people here also.

H5

Mattis is a candidate for H4. And there is doubt about Farshad and Leon, might be assigned a little too high.

H6

Only one center, Yoran still away and Hugo injured. Maybe take Sebastiaan of H7 as a benchplayer?

H7

Sebastiaan and Michiel might be candidates for H6. Thomas might also be able to keep up with H6.

H8

Max Gyula should go up a level.

This possible plans do need to be communicated thoroughly to the concerning players. Some shuffling of the teams might be needed. This also will be discussed and decided during the coming meeting of the trainers.

11. H9

The team level division is already introduced, and the board did not include a H9 yet. It will probably still be possible to sign up another men's team until about 2 weeks before the start of the new season. Thomas will check in which competition there will be an open spot. And sign a men's 9 team up in 3e klasse. H7 will play in that class. And the new players who will form the new team will play 4e klasse.

There is a waitinglist for people who did not play competition last season, but want to in the coming season. They will form the base of this new team, and there will be some filling from players from other teams then.

The definitive team division for this will follow after the trainers meeting. 6 januari supposedly is the deadline for the definitive team division in ISS.

12. D2

Next season there will be no D2 due to injuries and having too few female competition members. Instead there will be a large D1 consisting of about 11-13 players.

Furthermore, D1 wants to keep playing Rayon. They have only won one game, but in 2e klasse Rayon degradation is not mandatory when come in last. And the players indicate that they want to keep playing Rayon because they think Rayon is really an enrichment for their basketball experience and level.

However, seeing as Hugo is going to be abroad next season, there needs to be a new E-referee to fill in for him for the rest of coming season. This contains 12 games maximum.

Options for D1:

- Organize a E-referee currently in possession of a E diploma
- Educate a new E referee and ask dispensation for this person at the bond
- Degradation to regional level

Might D1 be not able to deliver a E referee, than the sanction will be unsubscribing from the competition and a fine. Junior thought this fine was about 250 euros.

D1 is discussing about this now, and there might be a loop hole which gives a 6 week postponement to be able to find a new E referee. This will be by reporting Hugo injured just before he leaves.

Bart thinks that E referees might be found more willing if there is some extra compensation moneywise, and asks if that maybe should be coming from the money that the sponsor committee exempted for this kind of goals last year. Max answers the dropping of the sportsponsorfonds of the TUDelft (3500,-) brings a lot of consideration.

Approach Thomas Schenderling to become an E referee?

Aliëh also seemed to find refereeing somewhat enjoyable. You do not need to be a competition member to be an E referee. Floris Tilburg might be an E referee 'type'.

Jurriaan references to a Rayon-west-referee-facebookgroup. There might be someone on there that could be interested.

D1 should have a definite plan ASAP. If the prospect of finding an E referee is very unlikely then the risks of receiving a fine and not getting to play in total is too high, and it might be better just to play regional.

13. Referees

Antonios has told Misha that he is considering to quit being an E referee due to troubles with the NBB.

Jurriaan is bummed to hear about this, because it is caused by such an organization and not because of the refereeing itself. Jurriaan will contact Antonios about this and wil CC Thomas.

Johnny also had some difficulties with the scheduling of the bond.

It might be useful to set up a meeting with all the referees, so that they can share their experiences and to see what we can change to make it better for them.

PUNCH Basketball

Delftse Studenten Basketball Vereniging

It is already difficult to attract new E referees. We cannot force people to like refereeing. And people should not get their E diploma if they dislike refereeing, because they probably will not be refereeing for more than a year that way.

It might be valuable to aim for a wider approach on getting E referees. Ideal would be to interest first years for getting such a diploma.

This may start with new members who are getting their F diploma first. If we make refereeing less of a burden with a F diploma then there might be more prospective in educating new E referees.

Jochem- How many new people have their F diploma?

There has not been a F course yet. The board applied for a F 'teacher' but is waiting for a reaction of the NBB. Hopefully the next f course will be in Januari.

An idea for more guidance of starting or unexperienced referees would be mini referee clinics before internal tournaments. And try to involve people like Alexandru.

Closure

14. WVTTK

Max- the last TC- F course fine of 25 euros

Jurriaan- not a fine a contribution discount!

After the emails Max send last week, there has been some protest about this discount. Some people believe they do not have an option to follow this course, or simply don't want to.

Peter- if they have valid reasons..

Jurriaan- people who do not leave after a year have priority for following a F course.

Thomas- If you do not get a chance to follow the F course the money is transferred back.

Ideal would be to have the F course at the end of the calendar year, seeing as there still some dropouts at the beginning of the year. November should be aimed for next time.

Jurriaan-obliged course " I don't feel like it" and "I don't want to referee" is not a valid reason. Suspend if they refuse.

-how do you suspend?

Notify the bond, but this would mean that the club will get the fine if he/she still plays games. Only way could be by suspension during home games without notifying the bond, so the court manager could check up on it. But this is unpractical.

Enric Baucells is only here for a year. Does he need to do it?

Yes, it's for enrichment of his basketbalgame for him and he can still referee for a whole season. BUT other people who will be with punch for a longer time have priority and will be assigned the course first, then if there are any open spots left. These will be for the people who are with Punch for a shorter amount of time.

15. Question round

No questions

16. Gossip

Line and Iris are distracting junior on Mondays with their Spartacus workout.

-The chicks look more buff then the guys there.

J- Spartacus workout is developed to look better on tv. Only 'six pack training'. So when you are fifty you will have serious back problems and will be broken.

Amanthla- ..But then you do have washboard abs.

Jurriaan has learned during his trainer course that running serves a better 'punishment' then push ups.

Peter vd weijden prefers pushups during boys training. But Misha does sit ups in stead, because he is a rebel.

17. Closure

Meeting closed at 22.25
